MEMORANDUM FOR: Members, IAC Ad Hoc Committee on Exchanges

SUBJECT : Exchange of Educators for Extended Periods  
(Section IX (2) Exchange Agreement, 27 Jan 58)

1. The Department of State has brought to my attention the fact that a number of American Universities are now taking an active interest in the exchange of faculty members for periods in excess of one year. The East-West Contacts Staff is currently negotiating with the Soviet Embassy on three specific proposals as follows:

a. Princeton University desires to exchange Dr. Henry Allen Hill, a research assistant in nuclear physics, with a comparable Russian physicist for a period of one, two, or more years.

b. Dartmouth University desires to exchange a staff member in the field of mathematics, physics, geology, anthropology, physiology, biochemistry, or polar studies, for the academic year, 1958-59.

c. Vanderbilt University desires to exchange a specialist in the field of galactic structure (astronomy) or nuclear physics for the academic year, 1958-59.

2. The Department has also received an inquiry from Oberlin College concerning the exchange of Frank R. Silbajoris, its Russian language instructor and a comparable Soviet instructor. The Department has further been advised by the American Council on Education that a sampling of some twenty-five US universities showed interest in the exchange on the part of the following:

American U.  
U. of Wisconsin  
Princeton  
Yale  
U. of Pennsylvania
